# PROSUIT

ProSuit was designed by selecting only high quality, long-lasting products with antibacterial coating. It is a revolutionary training suit that is more flexible and comfortable and has been created to cover your body better than anything you have tried before.

Feel the perfect harmony of ProSuit with your body with a special antibacterial fabric that can stretch in all directions. Get rid of the distasteful cable clutter that restricts your movement with cables carefully hidden in the ProSuit.

## Specially Designed Electrode

**Durable and Long Lasting**

**Homogeneous Pulse Transmission**

To get better results for users with different physical characteristics, adjust the positions of the electrodes or easily cover the leg area with the leg extension equipment. Put on the ProSuit without anyone's assistance. Protect your and your clients' hygiene by washing the ProSuits regularly in the washing machine using the correct cycle and a special detergent.
